Swim School Hub

Training Overview

the SWIM SCHOOL HUB

Benefits for Swim Schools

The **Swim School Hub** gives both swim schools and their teachers a competitive advantage through world renowned teaching practices from one of the world's masters of swimming teaching, Laurie Lawrence.

 **NEW CONTENT MONTHLY**

Designed for the ultimate training environment, you can induct, store staff qualifications and set reminders, develop skills and offer exams online for competency tracking.

The system is designed to allocate certificates upon successful completion of a section or an entire course.

It's the solution to help coordinators and managers facilitate inductions, staff competencies, and school compliance management.

How it Works

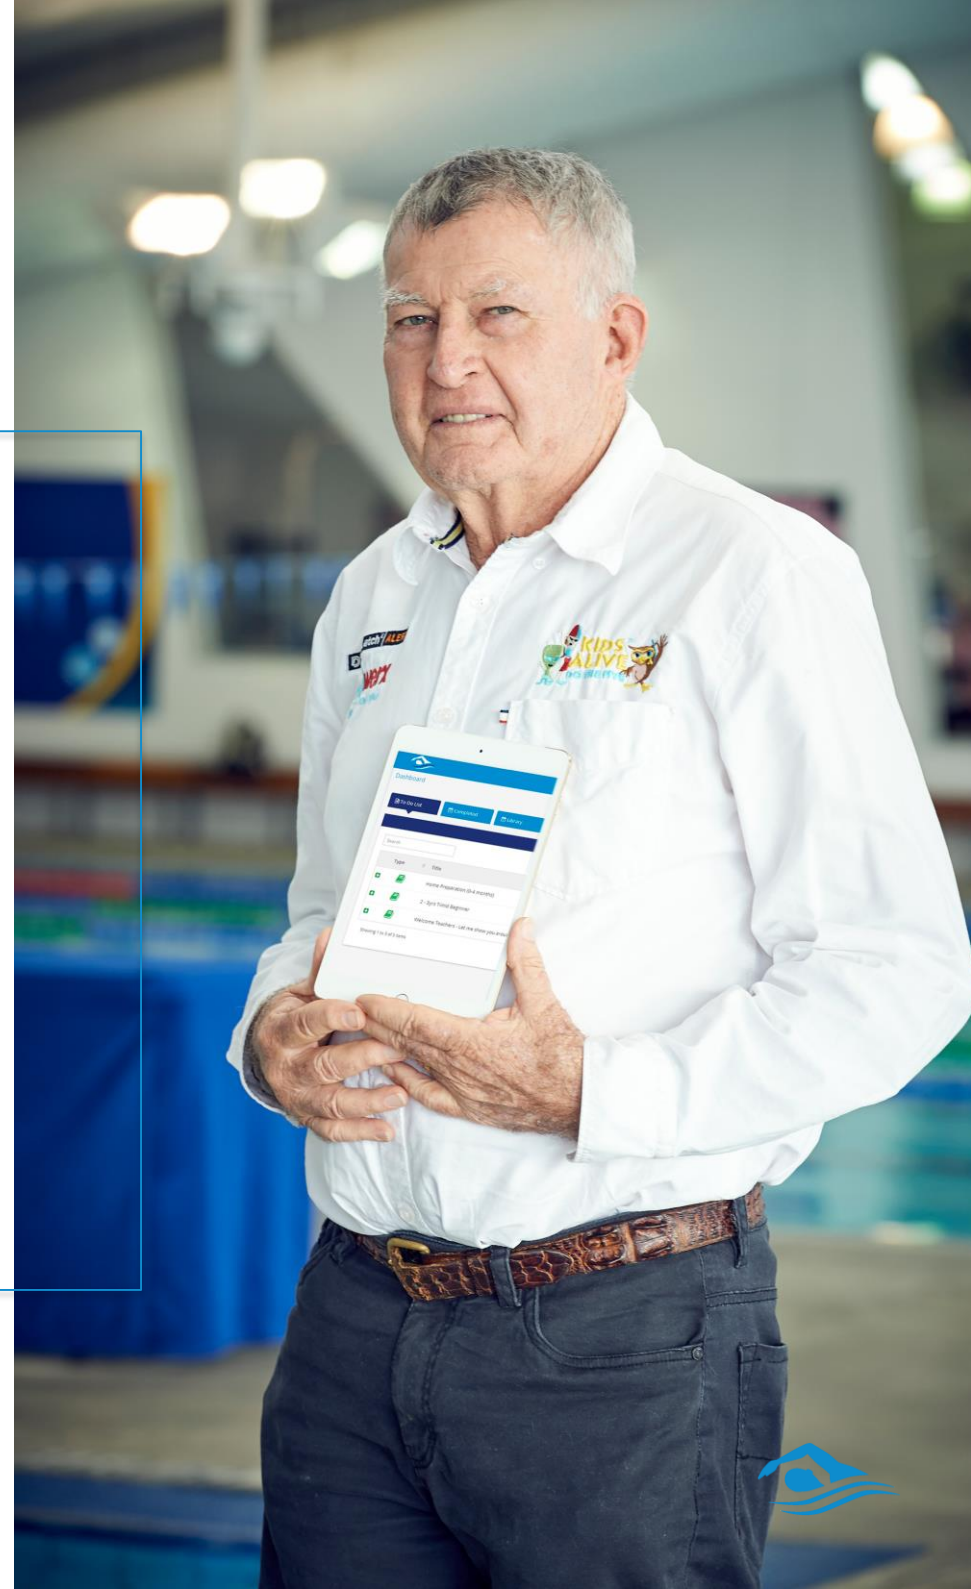

Training Content

The Swim School Hub includes over 60 training modules and over 180 learning resources. New content is added monthly.

This will equip you with all the essential swimming teaching training from infant aquatics right through to junior squad development.

THE SWIM SCHOOL HUB MODULES INCLUDE:

-  Individual Age Group Skills
-  Group Teaching Methods for Individual Age group skills
-  Infant and Preschool Aquatics
-  Learn to Swim (4 + years)
-  Strokes
-  Squads
-  Swimming Teaching Resources
-  Lesson Plans
-  Staff Development

CUSTOM DASHBOARD

The platform can be updated to your school's theme. Wherever your staff logs in to the Swim School Hub, their device will show your school's own custom dashboard.

MANAGEMENT

You can manage the addition of new users, monitor progress, control access and group users. Assign specific modules to specific teachers or groups of teachers.

AUTOMATION

Automatically trigger content to be delivered at the time your staff commence or complete a module. Monitor your staff's progress at any time.

ADD-ON

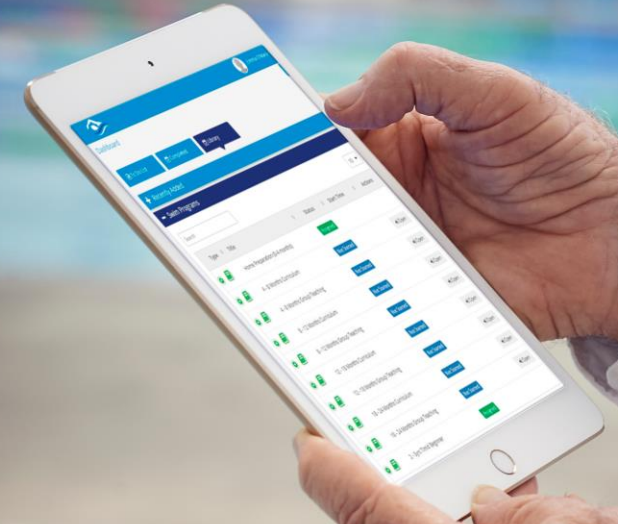

Content Creation*

Produce and update your own content in the system. This allows you to add new modules, events, resources and courses.

**Available at an additional cost*

FULLY CUSTOMISED PLATFORM

Everything you need, all in one location

Electronic Forms Tutorial

The screenshot shows the 'ditaplayer' dashboard for 'worldwide swimschool.com'. The user is logged in as 'Staff Member Webinar'. The dashboard has a top navigation bar with a search bar and a user profile. Below the navigation bar, there are four tabs: 'To Do List', 'Completed', 'Forms', and 'Library'. The 'Forms' tab is selected, displaying a table of forms. The table has columns for Type, Title, Status, Due Date, Course, Mandatory, and Actions. The 'Actions' column contains an 'Open Form' button and an 'Open' button. The 'Open Form' button is highlighted with a mouse cursor. The table lists 9 items, showing 1 to 9 of 9 items. The 'Status' column shows 'Not Started' for most items and 'In Progress' for 'Opening Duties Checklist' and 'Pool Plant and Equipment Register'. The 'Due Date' for most items is '30 Apr 2019', while 'Leave Application Form' is '12 Apr 2019'. The 'Mandatory' column shows an asterisk for all items. The 'Actions' column shows an 'Open' button for all items.

Dashboard

What our customers say...

Investing in the quality online training available through the Swim School Hub has proven to be **highly successful, cost effective** and **user friendly**.

The flexibility and scope of training has enhanced and broadened the knowledge and understanding of our swimming and water safety teaching staff teams.

Our program focus and quality of learning outcomes has also been greatly enhanced through the Swim School Hub.

The ability to select modules for different teacher requirements has made our job easier and also provides us with the ability to monitor staff training that caters for each individuals need.

Coordinators are also able to track training using the calendar function within the platform which allows them to develop agendas for meetings, monitor attendance of staff and make notes from the session.

Emergency Risk Ready Training

for Swim Schools

Training Overview

Be prepared for emergencies at your Swim School

As a business, you have a legal obligation to customers and staff to ensure their safety. Well-trained staff who are prepared to manage emergency situations can make the difference between life and death.

The Emergency Risk Ready (ERR) Training modules are designed to improve the safe work practices of all employees. The modules can be used as part of your induction training and ongoing refresher training in your workplace.

How we can help

Emergency Risk Ready Training will ensure staff are well-prepared in the event of an emergency at your Swim School.

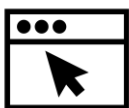

SAVE TIME

We do the emergency training for you, allowing your staff to be trained while you focus on everything else.

COST-EFFECTIVE

Saves your business money in lost-productivity as the training is online and learner-lead.

ONLINE TRAINING

Training can be completed anywhere, at anytime. New staff can be job ready by completing the training prior to their first shift.

MITIGATE RISK

Ensure that your staff are prepared, up-to-date and consistent in their emergency training and protocol.

What Is Emergency Risk Ready Training

worldwideswimschool.com

Emergency Risk Ready Training for Swim Schools

Training Content

ERR Training consists of **3 training modules** with over 20 topics designed for swim school operations.

The **estimated duration to complete each module is 30 minutes**. Each module is broken up into topic areas and consists of a training video and assessment quiz.

On completion of each section, the staff member is issued a certificate of completion.

MODULE 1: MEDICAL EMERGENCY

This module covers 10 topics including:

- Asthma
- Heart
- Fainting
- Seizure
- Breathing Difficulties
- Head & Spinal Injuries
- Electric Shock
- Burns
- Incident Reports
- Medical Emergency Procedure

MODULE 2: NON-MEDICAL EMERGENCY

This module covers 6 topics including:

- Fire & Evacuation
- Bomb Threat
- Robbery
- Offenders Report
- Internal Threat & Evacuation
- Manual Handling

MODULE 3: CHEMICAL EMERGENCY

This module covers 5 topics including:

- Personal Protective Equipment
- Safety Data Sheets
- Chemical Spills
- Emergency Evacuation
- Toxic Gas
